About

I am a Fullstack Developer from Georgia I'm passionate about building something from scratch.

I've always had the mindset that programming is an art as you can create something out of nothing

My philosophy is simple: clean code, meaningful impact, and continuous learning.

Education & Work

Georgian National University SEU
Currently Enrolled in Bachelor's
Degree Program in Computer Science

English Proficiency Journey

Received personalized British English training (1st-4th grade, ABC Certificate at age 8).

Continued studies with personal tutors (5th-6th, 8th-10th grade, reaching C1 level).

Improved spelling through online communities (e.g. Hyun's Dojo) and global interactions.

Programming & Self-learning

Began programming in 5th grade, starting with HTML and exploring IT topics.

Continuing education at IT Step's Professional Academy (since 2020);
Lecturer at IT Academy Step Currently.
