EDUCATION

#147 Public School (1st-4th grade)

#208 Public School (5th-11th grade)

IT-Step Academy (Programming)

These educational institutions, including #147 Public School, #208 Public School, and IT-Step Academy, have shaped my educational journey. They provided me with a strong academic foundation and equipped me with the necessary skills and knowledge, It-Step particularly in programming, to thrive in my chosen field.

MATH

- In 5th grade I started learning in Komarovi's official math school, till 7th grade.
- from 7th grade till 12th grade i studied with personal tutor and changed teacher before National exams.

ENGLISH

- Received personalized British English training from 1st to 4th grade, earning an ABC certificate at the age of 8.
- Continued English studies with a personal tutor from 5th to 6th grade.
- Enhanced English spelling through online interactions in social media and animating communities, like Hyun's Dojo, during my school years.
- Achieved a significant proficiency boost from B1-B2 to C1 level with a tutor from 8th to 10th grade.
- Currently, I continue to improve my spelling by engaging in conversations with individuals worldwide.

These experiences and efforts have contributed to my strong English language skills, allowing me to communicate confidently in both written and spoken forms.

Programming / Self Learning

- Explored IT subjects in 5th grade, discovering my passion for programming. Started with HTML coding and chose programming as my desired career path.
- Self-learned programming using the SoloLearn app and studied documentation from W3Schools.
- Joined IT Step academy in 9th grade, learning bit of 3D modeling, Python, web development, .NET, Photoshop, and more. at that time ranked as one of the top student in the academy.
- Continuing education at IT Step's Professional Academy from September 2022 onwards.
- Later on I started working on different projects. But currently I am working on mine and my friend's Clothing Brand Website "Qvastore"
- Finished Academy of It-Step in 2024 with building two fullstack projects.

These experiences have shaped my programming skills, providing me with a solid foundation and a diverse skill set. I am passionate about furthering my expertise and contributing to innovative projects in the field of programming.
